Dear Prospective Employer,

I am the most hardworking, eternally optimistic, creative, and daring filmmaker I know. I am driven by story, elevating production quality, and being a great steward and procuring film funding. *I can help your film!*

As a **director**, I am a generous, disciplined, and dedicated visionary to get the needed performances out of my talent to create the best story. I have worked with established and first-time actors. I am a teacher, a motivator, a counselor, and a friend to both cast and crew on and off set.

As a **writer**, I know what it takes to connect with an audience, captivate with fresh ideas, and see the bigger picture and story that is being told.

As a **cinematographer**, I have a keen eye on the best frame and lighting for every take in any situation. Whether on set or on location I will find the best way to bring a film to life in a cinematic bold style.

As an **editor**, I always know the coverage we need, the variety of takes, and the mindfulness of timing to executive a captivating final cut.

As a **producer**, I know what it cost to make a film. I can push a film out of development Hell and into production, or I can fix a film either on set or in post, and get movies back on the tracks and off to profitability.

I believe my various work experience and creative original productions speaks to the level of dedication and work ethic I possess. I will deliver a consistently excellent and entertaining movie viewing experience.

Sincerely,

Spencer Folmar
